Incorporated in 1841. CAPITAL STOCK \$250,000. Rates of Premium reduced Twenty-five per cent.

CAPITAL STOCK \$250,000.

Rates of Premium reduced Twenty-five per cent.

Persons insured in this Company for the whole term of life participate in the annual division of profits which will be paid in scrip or by bonds added to the policy.

Life Insurance upon the principle adopted by the Company is founded upon the principle adopted by the Company is founded upon the principle of contribution in the shape of annual; semi-annual, or quarterly premium or dues to a common fund, proportionate to the amount insured, out of which the company pay a stipulated sum on the death of the assured, to the person for whose benefit the insurance is effected. Thus each person insuring in this company, by contributing a small portion of his income or earnings, effects a sure provision for the wants and necessities of his family after they are deprived of that support which, whilst living, he was enabled to provide for them by his exertion.

After a thorough investigation of the different systems adopted in Europe and America, and of the rates of premium charged, this company have reduced the annual premium or quarterly dues twenty-five per cent., and will receive the premium annually, semi-annually, or quarterly, as may be preferred, under a firm conviction that the exigencies of the company will never exceed and seldom require the premium charged by this company, to enable it to meet all its engagements, which reduction will leave a large margin for seasons of unusual sickness and death among its members. This company preferring to reduce the premium at once to an amount more nearly approximating the actual necessities of the company, than to adopt the system of premium notes for a portion of the premium which is attended with so many disadvantages.

Some of the peculiar advantages of this company are, 1. A reduction of twenty-five per cent. in the annual premium charged.

2. A participation in the profits of the company by those who is successive.

1. A reduction of twenty-five per cent. In the annual primium charged.

2. A participation in the profits of the company by the who insure for life. 3. A guarantee capital of \$250,000 to guard against all ntingencies.

We beg to announce to the public that we have entered into connexion with the heaviest transportation house on the Isthmus, who are bound to us to transport our goods from Chagres to Panama, in advance of all other expresses, and having made arrangements with the U. S. Mail and all other steamers on the Pacific, for the carriage of our goods, we are prepared to guarantee their delivery in San Francisco within a specified time.

In addition to the superior qualities of the line, for the transaction of Merchandise, its manifest advantages over the U. S. Mail and all other competitors, in the transportation of letters and parcels between the Pacific and Atlantic States, are well known and already generally appreciated by the public. The value of a mercantile letter, delivered by us three or four days in advance of all other competition, being properly estimated.

We have also established agencies in GUAYAQUIL, CALLAO, and VALPARAISO, for which ports, and other cities on the South American coast, we are prepared to receive LETTERS and PARCELS, which will be promptly despatched to their destination by our agent in Panama.

The mail for South America is made up but once a month.

Ice Creams, Water Ices, &c.—Patented September 19, 1848.

Till Edistinguising merits of this Apparatus are—
Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tun needs no repleuishing during the operation.

The annexed testimonial from the Proprietor of the Eutsw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, in cheerfully recommend it to the public."

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW.

Established, July, 1889, BY FREEMAN HUNT, EDITOR AND PROPRIETOR. THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1839, and each volume now contains more than seven hundred large cotavo pages. A few complete sets of the Magnaine may be obtained at the publisher's office, 142 Fulton streat, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory let-ters received by the editor of the Merchants' Magasine from distinguished statesmen: Letter from the Hon. Henry Clay.

Letter from the Hon. Henry Clay.

ASHLAND, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washington City, April 20, 1840.

Mr. Freeman Hunt.—Nr: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant,

THOMAS H. BENTON. Letter from the Hon. Thomas H. Benton.

Letter from Hon. Wm. H. Seward. My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant, eman Hunt, esq. WILLIAM H. SEWARD. I am, with great respect, your numble servant, Freeman Hunt, esq. WILLIAM H. SEWARD. WISE & BROTHER, Manufacturers of Boudow, Grand, and Square Pianos, results the seven with the greatest possible advantage—one that the touch can be instantly adjusted to the exact strength of the fingers and movement of music, one that will stand in concert tune, one that the touch will not become shrill and grating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an age—to give them a call. The ancient standing of the Baltimore Factory, and liberal patronage of cltizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

Having just completed large additions to our Manufactory, we hope now to supply all who may honor us with their patronage; and we invite all who desire a superior instrument, carefully adapted to the climate—a very important matter, and which we have made our careful study—to call and examine our various styles, which we are constantly fluishing, and which will be sold at the lowest market price for cash or approved paper.

In addition to the above public testimonials, our Pianos are recommended in terms of the highest praise by the following eminent artists, whose certificates can be seen at our Warercomes: Charles Bochas, the great composer and musical director to Mad. A. Bishop; Mr. Geo. Knoop; Miss Adele and Charles Hohnstock, and other distinguished performers. To the many accomplished Professors and Amateurs, by whom our Pianos are constantly used, whilst making our thankful acknowledgments to them, we refer for further testimonials.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, allke by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curring the sick; for that system of drugging, depleting, and canterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the carly discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
